## SPEED.Compact™ ECO

Configure  
SPEED.Compact™ ECO  
on [unox.com](https://unox.com)

Usability at its core

## Ready to go. In a flash.

The oven is ready to use right out of the box. Its intuitive interface ensures a seamless initial power-up, simplifying operations from day one. No exhaust pipes, hoods, or complex installation manuals are required—staff can start cooking as soon as the oven is on the counter.

Performance at full speed

## Speed is its daily bread.

With SPEED.Compact™ ECO, fast service is no longer a challenge—nor is maintaining a great cooking performance. It delivers quick, uniform results around the clock, ensuring consistent quality even during peak times. Stress-free service, 24/7.

Best value for money

## A smart investment for lasting value.

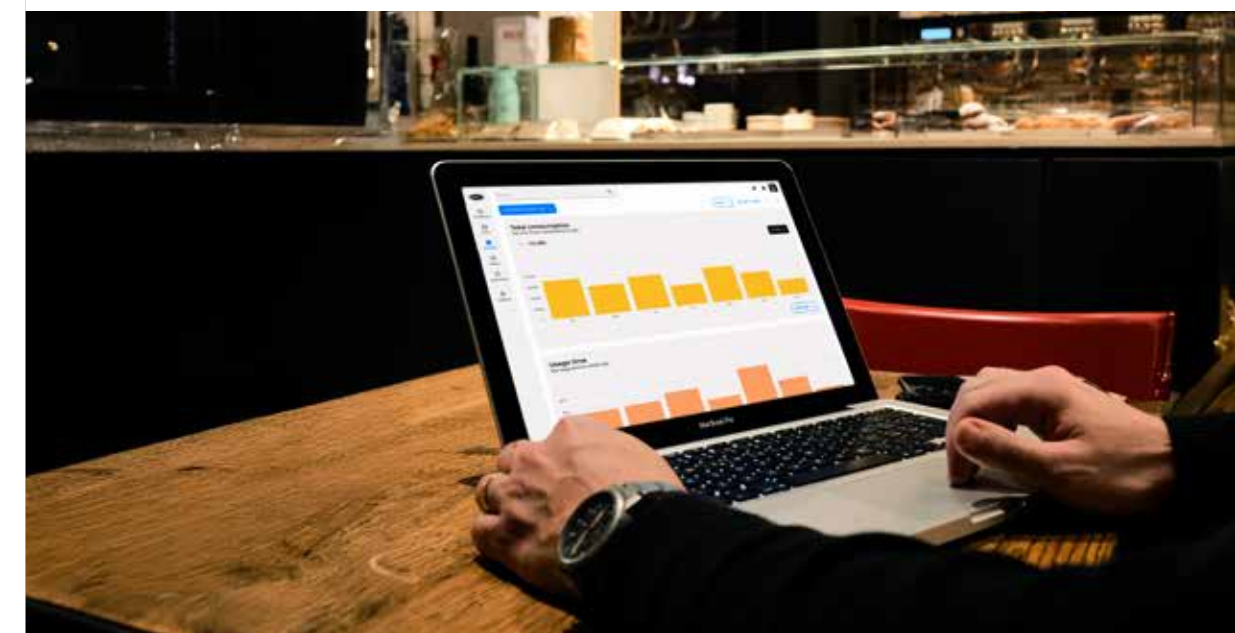

SPEED.Compact™ ECO offers exceptional value for money, delivering great performance while driving significant savings. It minimises payback time, making it one of the smartest choices for a reliable, high return investment.

The quietest and most smell-free oven

## Your customers' experience comes first.

The double chamber-and-chimney catalysts filter out fumes without the need for hoods, ensuring a smell-free, silent and healthy environment for both your staff and customers. Plus, they make SPEED.Compact™ ECO the quietest speed oven on the market. Sleek discretion for any counter.

Click & Cook

A click is all it takes.

Staff can start any cooking programme in seconds—whether using presets or customised ones—in the Click & Cook page. It's all about making workflows smoother and faster. Ready to simplify staff routines and boost efficiency?

Cooking performance

Cook fast, delight faster.

SPEED.Compact™ ECO puts speed at the forefront reducing wait times and improving customer experience. Faster service means happier customers and higher revenue—because time is money. Numbers don't lie—check them out!

QUICK.Rinse

Cleaning is now easier.

The QUICK.Rinse hand shower and water collection pipe make cleaning the cooking chamber straightforward. Staff can clean the oven quickly, effortlessly, and efficiently by following the panel's step-by-step instructions. The better the product maintenance, the longer its lifespan.

30"

One muffin

30"

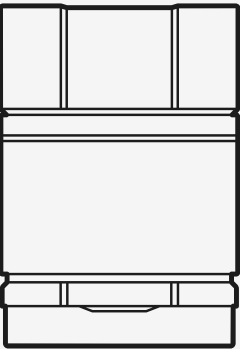

A slice of banana bread

30"

One ham&cheese croissant

30"

One quiche with spinach

XEMA-01NS-MCDN

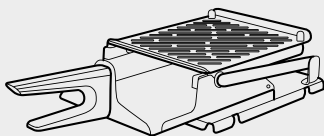

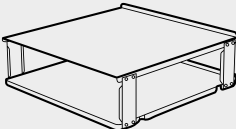

Capacity	1 tray 300 x 300
Dimensions (w x d x h)	424 x 719 x 616 mm
Frequency	50 Hz
Voltage	230V
Electrical power	3.6 KW

SPEED.Bake

Perfectly crafted to handle it all.

8 croissants or 8 loaves in a single batch?

With the SPEED.Bake tray, turning your SPEED.Compact into a convection oven will be as easy and quick as pressing a button.

SPEED.Marks

A tray that redesigns tradition.

Mark your sandwich!

The non-stick aluminium ribbed tray and top plate allows staff to deliver perfectly doubleside-toasted bread faster than toasters.

QUICK.Rinse

Always-shiny cooking chamber.

Stress-free cleaning.

Thanks to the QUICK.Rinse hand shower and a spacious liquid collection drawer, the oven cleans in seconds, with easy liquid disposal—no drain required.
